System of Care and Care Review

A “system of care” is a network of community services and resources that work together to help families and loved ones meet the needs of children and adults with serious and complex behavioral, social or safety concerns.

The Alliance System of Care provides a collaborative and nurturing environment for individuals, families and trusted friends, service providers and other helping agencies to share their expertise and perspectives. Their goal is to ensure “whole person care” that leads to healthier lives.

An important part of this collaboration is Care Review. This brochure is full of information about how Care Review works and how you or a loved one benefit from the “wraparound” care provided by a Care Review Team.

About Care Review

Care Review is available to anyone living in Durham, Wake, Cumberland and Johnston counties, the region served by Alliance.

Care Review is based on the principles of recovery and self-determination. It is a collaborative planning process in which individuals with serious or complex needs and their families meet with a Care Review Team.

Care Review Teams are made up of 10-15 individuals representing community resources, public agencies, members of the faith community, and trusted friends and advocates.

Care Review Teams create a comprehensive Action Plan based on the goals of an individual and his or her family. The Plan eliminates barriers to accessing care and supports.

By improving timely access to care and enhancing coordination among multiple helping systems, Care Review is intended to make it easier for individuals served by Alliance to receive the “whole person care” that addresses their multiple needs.

Child Care Review

Child Care Review is available to all children or adolescents and their families who are:

- Requesting an out-of-home placement or transitioning back to home and community
- Needing access to behavioral and/or primary health services and supports
- Struggling in school and/or the community
- Preparing for transition to adulthood
- Experiencing complicated life circumstances

Adult Care Review

Adult Care Review is available to persons 18 and over who are:

- Homeless or at-risk of homelessness
- Needing access to behavioral and/or primary health services and supports
- Experiencing complicated life circumstances in multiple areas of their lives
